

Performance Commentary

Global equities rose slightly during the month. SKAGEN Global underperformed its benchmark index MSCI AC World. The fund ended the month ahead of its benchmark as measured year-to-date as well as over 1-year and 3-year periods. The fund's top-3 absolute performers were JP Morgan, Schindler and Microsoft. Emerging signs of a macroeconomic recovery and bond yields ticking higher helped boost the share prices of companies with a cyclical tilt. The US technology behemoth Microsoft delivered a Q3 report with strength across the board. The fund's bottom-3 absolute performers were Baxter, Hiscox and McDonald's. The US medtech company Baxter fell after it disclosed an accounting probe into foreign exchange treatment. Having reviewed the initial facts revealed thus far, we believe the scope and impact to be relatively contained. Hiscox pulled back in the wake of expected higher claims for natural catastrophes, especially for recent typhoons in Japan. McDonald's retreated largely as part of a sector rotation, in our view. The fund's portfolio remains attractively valued.

The fund selects undervalued companies from around the world, including emerging markets, with attractive risk-reward for long-term investors.

The objective is to provide the best possible risk adjusted return.

The fund is suitable for those with at least a five year investment horizon.
